RECEIVED

MAR 13 2001

TECH CENTER 1600/2900

Applicant(s) : CHEN et al.

Serial No. : 09/270,437

Filing Date : March 16, 1999

For : ISOLATED NUCLEIC ACID MOLECULE ENCODING CANCER ASSOCIATED ANTIGENS, THE ANTIGENS PER SE, AND USES THEREOF

Art Unit : 1642

Examiner : K. Canella

Hon. Commissioner of Patents
and Trademarks
Washington, D.C. 20231

March 2, 2001

**RESPONSE
TO RESTRICTION
REQUIREMENT**

S I R:

In response to the restriction requirement of February 13, 2001, applicants elect Group I, claims 53-73, 80-84, 108 & 109 with traverse. It is believed that claims 92-95 and 102-104 (Group V) should be included.

The claims of group V specifically require the use of the products of Group I, so there will inevitably be a search of "V" in searching "I". Further, the examiner's assertion that the nucleic acid molecules of Group I "can be used in an in vitro mutagenesis assay" receives no support from the record, or the art.

LUD 5538.1CIP - JEL/NDH (987339)

In view of the forgoing, withdrawal of the restriction between Groups I and V is believed proper and is urged.

Respectfully submitted,

FULBRIGHT & JAWORSKI L.L.P.
